

# International Conference on Sustainable Agriculture, Forestry and Environment Management (ICAFE - 2019)

November 27-29, 2019

Sunway Putra Hotel, Kuala Lumpur, Malaysia

## Sunway Putra Hotel, Kuala Lumpur

Situated directly opposite the iconic Putra World Trade Centre (PWTC), Sunway Putra Hotel is within easy reach of the country's busiest financial centre and trendiest shopping haven. The hotel is located next door to the all-new Sunway Putra Mall – where visitors can uncover never-ending discoveries, excitement-packed retail and entertainment experiences.

The hotel is only less than 3 kilometres away from the city's renowned Petronas Twin Tower or more popularly known as KLCC Twin Towers and is a popular choice for many who want to stay away from the hustle and bustle of the city yet still close enough to get into the financial, tourist and fashion hub of Kuala Lumpur. KLCC encompasses the country's most prestigious shopping destinations and robust commercial district. There is scheduled shuttle service daily to KLCC from the hotel.

## ACCOMMODATION

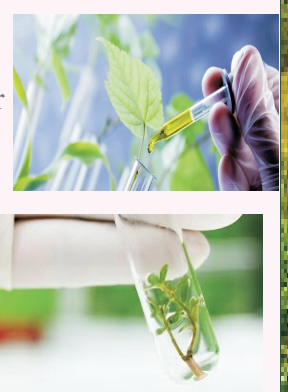

Block reservations for ICAFE -2019 participants and accompanying guests have been made at special rates in the Conference venue, **Sunway Putra Hotel, Kuala Lumpur, Malaysia**. The Reservations should be made directly with the hotel by using the Reservation form. Please note that the number of rooms available with special rates is limited therefore you need to book your accommodation at your earliest convenience.

## About the Conference :

About the Conference: The International Conference on Sustainable Agriculture, Forestry and Environment (ICAFE - 2019) aims to deliberate on viable solutions to problems emerging as a result of climate change. It serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in achieving sustainable environment and climate resilience. The integrate pest and disease management has an important role in sustainable agriculture, quality food production and environmental sustainability. The procedures to improve economic yields while reducing inputs include: the integration of pesticides with cultural techniques for disease control; and biological, behavioral, and environmental controls of pests such as weeds. International Conference is a prestigious event organized with a motivation to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students to share their research findings with the experts. The organizers invite original research for oral or poster presentations in major areas of agriculture, Horticulture, Forestry, Biological resources and utilization and conservation, environmental management etc.

All abstracts should be written in English and submitted on or before **October 25, 2019** through on-line abstract system: by using the following link: <https://www.mypadnow.com/icafe2019/icafe-2019--call-for-papers>

The title of the paper should be 16 pt Times New Roman and the Name and Address must be centered with 14 pt Times New Roman. The main text should be single-spaced, in 12 pt Times New Roman with Key words at the end. The number of words in the abstract should not exceed 450.

## Technical Sessions / Topics:

- Precision Agriculture and Smart Farming Technology
- Animal Sciences, Advances in Livestock Production and Management
- Agronomy and Industrial Crop Production
- Aquaculture and Fish Production
- Quality Food production, Food Safety and Food Security
- IPM, Biopesticides and Organic Agriculture
- Medicinal Plants, Phytochemistry and Drug Discovery
- Water Mangement technology in Agriculture and Forestry
- Agribusiness and Agri Economics
- Biotechnology in Sustainable Agriculture
- Impacts of Climate Change on Agriculture and Forestry Women in Agriculture
- Bioresources Conservation for Environmental Sustainability
- Impacts of Climate Change and Global Warming on Ecosystems
- Forest Products and Rural Livelihoods
- Forest Management, Forestry Education and Information Systems
- Ecotourism and Nature Conservation
- Recent Advances in Agroforestry
- Post Harvesting Technology and Marketing
- Horticulture, Landscaping and Urban Agriculture
- Mitigation of Air, Water and Soil Pollution
- Environmental Toxicology and Health Safety
- Alternative Energy and Waste Resource Management
- Green Chemistry and Recycling
- Trends in Wildlife Management
- Apiculture, Sericulture and Dairy Farming in Rural Development
- Advances in Hydroponics
